Access to employment for vulnerable groups (Foundation paper No. 2 June 2002)

Author: Foundation
Summary: Foundation papers aim to highlight knowledge and analysis emanating from the Foundation's research themes: employment, equal opportunities, social inclusion, time use and diversity. The objective of the papers is to make past, present and future work of the Foundation relevant and accessible in a synthesised format. The subject of each paper will be linked to current social policy issues and offers therefore a timely contribution to the debate at European level. The second Foundation paper focuses on improving access to employment, specifically for groups who are disadvantaged in the labour market.
